REMARKS/ARGUMENTS

The Applicant thanks the Examiner for the Office Action dated October 1, 2004.

DOUBLE PATENTING

Claim 1 of the present application has been amended to additionally recite a data input module. Basis for this amendment can be found on page 72, line 1 of the description, which describes a "network interface module 625" corresponding to the data input module of claim 1.

It is submitted that present claim 1 no longer conflicts with the claims of the Applicant's copending US application no. 09/575,187. Accordingly, it is submitted that the double patenting rejection should be withdrawn.

It is respectfully submitted that all of the Examiner's objections have been successfully traversed. Accordingly, it is submitted that the application is now in condition for allowance. Reconsideration and allowance of the application is courteously solicited.

Very respectfully,

Applicant:
